SUMMARY

Backend Software Engineer with 3+ years of experience in building scalable APIs, microservices, and data-driven applications using **Java, Spring Boot, SQL**. Strong expertise in designing backend systems handling millions of daily transactions across e-commerce domains.

TECHNICAL SKILLS

Backend Development: Java (Collections, Multithreading, JDBC, Serialization), Spring Boot, RESTful API's, Microservices
Databases: MySQL, Oracle
Tools: Maven, Git, GitHub, Postman
Concepts: Data Warehousing, OOP, Multithreading, API Design

EXPERIENCE

1. **Brightcanyon Solution India**   Sep 2023 – Present
   Software Engineer (Backend)   *Bengaluru, India*

   Led the successful integration of Trustly Payment Solution into an e-commerce application, leveraging the power of the Java stack. Transformed the payment experience by enabling seamless and secure transactions, resulting in a 30% increase in customer conversion rate and a 20% reduction in cart abandonment.

   ⟹ Developed scalable Java/Spring Boot REST APIs for subscriber.

   ⟹ Collaborated closely with cross-functional teams, including designers and QA engineers, to ensure seamless integration and high-quality deliverables.

   ⟹ Designed and implemented secure APIs for seamless communication between the e- commerce application and the Trustly Payment Solution, ensuring data privacy and protection.

   ⟹ Conducted thorough testing and debugging to identify and resolve issues, resulting in a stable and reliable payment system.

   ⟹ Actively participated in code reviews, providing valuable feedback to improve code quality and maintain best practices in java stack development.

2. **Cybage Software**   July 2022 – Sep 2023
   Software Engineer (Backend)   *Hyderabad, India*

   Developed an insurance onboarding system with Java stack, streamlining customer onboarding, reducing onboarding time by 30%, and improving efficiency by 40%. Achieved 95% accurate identity verification using ID Now.

   ⟹ Implementing Onboarding & Secure-APIs to facilitate integration with third-party companies, resulting in a 40% increase in customer onboarding efficiency and reducing manual data entry errors by 25%.

   ⟹ Conducted code reviews, resolving 90% of bugs and enhancing application performance by 15%.

   ⟹ Achieved an on-time delivery rate of 95% by utilizing Agile methodologies and delivering software modules within tight deadlines.

   ⟹ Reduced integration time by 30% through collaboration with cross-functional teams for seamless integration.

   ⟹ Improved software quality by decreasing post-release defects by 20% through close collaboration with QA teams.

EDUCATION

RGPV, Bhopal   2015 – 2019
B.E. in Computer Science & Engineering
